Garvit Sharma

FULL STACK WEB DEVELOPER

SUMMARY

- A focused, multi-capable, self-propelled and self persuaded proficient with an outstanding apitude and coding abilities towards the essential choice. I'm looking advances to using my abilities to help your association and upgrade my insight with assistance of your group.

- Likewise, fit to overseeing individual representatives and stresses the significance of consumer loyalty.

EDUCATION & CERTIFICATIONS

Diploma in Engineering in Computer Science, Vivekananda College of Polytechnic, Aligarh, U.P. (Ongoing)   Oct - 2021/Aug - 2024

- Currently pursuing a Diploma in Engineering with a specialization in Computer Science. Gaining comprehensive knowledge and practical skills in various areas of computer science, including programming languages, algorithms, data structures, and software development methodologies.

- Engaged in coursework designed to provide a solid foundation in both theoretical concepts and hands-on experience, preparing to contribute effectively to the dynamic field of technology upon completion.

Pre - Matriculation, Brilliant Public Sr. Sec. School, Aligarh, U.P.   Aug - 2021

- Completed pre-matriculation studies in 2021, demonstrating dedication and commitment to academic pursuits.

- Developed foundational skills and knowledge necessary for continued academic and personal growth.

PROFESSIONAL EXPERIENCE

Full Stack Web Development Intern, Cognifyz Technologies   FEB -24/ MARCH-24

Responsibilites

- Worked together with groups to foster powerful web applications.
- Made responsive front-end connects with HTML5, CSS3, and JavaScript.
- Carried out back-end functionalities utilizing Python, Node.js, or PHP.
- Utilizing frameworks like React.js, Angular, or Vue.js to create interactive and engaging user interfaces that enhance usability and interactivity.
- Led testing and troubleshooting cycles to guarantee application security.
- Embraced light-footed philosophies for iterative turn of events.
- Exhibited solid critical thinking abilities and obligation to acquiring.

Full Stack Web Development Intern, Oasis Infobyte   **March - 2024/March - 2024**

Responsibilites

- Full Stack Web Development Intern at Oasis Infobyte
- Actively involved in the complete software development lifecycle
- Collaborate with cross-functional teams to gather requirements and implement innovative features
- Develop responsive front-end interfaces using HTML5, CSS3, and JavaScript
- Implement robust back-end solutions with technologies like Node.js or Django
- Utilize databases such as MySQL or MongoDB for effective data management
- Proficient in version control systems like Git for codebase management
- Continuously expand skill set through self-directed learning and staying updated with emerging technologies
- Strong problem-solving skills in troubleshooting and debugging issues
- Contribute to a positive and collaborative work environment by sharing insights and providing constructive feedback

Web Application Developer Intern, CodeAlpha   **March - 2024/ March - 2024**

Responsibilites

- Participate in the conceptualization and planning phases of web application projects, contributing insights and ideas to enhance user experience and functionality.
- Execute front-end and back-end development tasks using modern web technologies such as HTML5, CSS3, JavaScript, and various frameworks.
- Collaborate with senior developers to integrate cutting-edge features and functionalities into web applications, ensuring optimal performance and usability.
- Conduct thorough testing and debugging procedures to identify and resolve issues, ensuring the delivery of high-quality, bug-free applications.
- Engage in ongoing learning and professional development activities, staying abreast of emerging trends and best practices in web development to enhance skillset and contribute effectively to project success.
- Demonstrate strong problem-solving abilities and attention to detail in tackling complex technical challenges and optimizing code efficiency.
- Communicate effectively with team members and stakeholders to gather requirements, provide progress updates, and solicit feedback throughout the development lifecycle.
- Contribute to a positive and collaborative work culture, fostering open communication, knowledge sharing, and continuous improvement within the development team.

Web Programmer Intern, Let's Grow More   **March - 2024/ March - 2024**

Responsibilites

- Collaborated with cross-functional teams to develop and implement innovative web solutions that align with organizational objectives and client requirements.
- Participated in the full software development lifecycle, from conceptualization and design to coding, testing, and deployment, ensuring the delivery of high-quality, scalable web applications.
- Demonstrated proficiency in programming languages such as HTML, CSS, JavaScript, and frameworks like React.js and Node.js, leveraging advanced techniques to create interactive and responsive user interfaces.

- Engaged in continuous learning and professional development, staying abreast of emerging technologies and industry best practices to enhance my technical proficiency and contribute fresh perspectives to the team.
- Contributed to the optimization of website performance, conducting thorough analyses and implementing enhancements to improve speed, functionality, and user engagement.
- Actively participated in team meetings, brainstorming sessions, and code reviews, fostering a collaborative environment conducive to innovation, creativity, and knowledge sharing.
- Demonstrated strong problem-solving abilities and attention to detail, troubleshooting issues and implementing effective solutions to ensure seamless functionality and user satisfaction.

4th Runner Up, Cyberfrat CFfeine Trip (India's Largest Hackathon)   April - 2023/Dec - 2023

- Secured 4th position in CyberFrat CFFEINE Trip, an esteemed hackathon event recognized as India's largest.
- Demonstrated exceptional problem-solving skills, innovation, and technical proficiency throughout the competition.
- Collaborated effectively within a multidisciplinary team to devise innovative solutions to complex challenges posed during the hackathon.
- Applied creativity and strategic thinking to develop cutting-edge solutions, contributing significantly to the team's success.
- Leveraged expertise in cybersecurity, programming, and technology to overcome obstacles and achieve outstanding results.
- Honed teamwork, communication, and time management abilities in a fast-paced and competitive environment.
- Earned recognition for demonstrating leadership, resilience, and dedication to excellence in the field of cybersecurity and technology.

Freelance Website Developer   2022/Present

- Developed custom websites and web applications from scratch, utilizing a variety of technologies including HTML5, CSS3, JavaScript, and popular frameworks such as React.js, Angular, and Vue.js.
- Demonstrated proficiency in backend development, utilizing Node.js, Express.js, and MongoDB to build robust server-side applications and manage databases efficiently.
- Utilized responsive design principles to ensure seamless user experiences across devices of all sizes, prioritizing accessibility and usability.
- Implemented best practices in search engine optimization (SEO) and performance optimization to enhance visibility and ensure optimal site speed and performance.
- Collaborated closely with clients to understand their unique requirements, provide technical expertise, and translate their visions into functional, visually appealing websites.
- Actively participated in code reviews, debugging sessions, and iterative development cycles to maintain code quality and address any issues promptly.

SKILLS

Front-end Development:

- Proficiency in HTML5: Structuring web pages effectively.
- Proficiency in CSS3: Styling web pages and creating responsive layouts.
- JavaScript: Strong understanding of core concepts, DOM manipulation, and asynchronous programming.
- CSS frameworks like Bootstrap or Materialize for rapid development.
- Front-end libraries like React.js or Vue.js for building interactive user interfaces.
- Experience with responsive design principles and techniques.
- Knowledge of web accessibility standards and best practices.

Back-end Development:

- Proficiency in a server-side language like Node.js, PHP.
- Database management with SQL (e.g., MySQL) databases.
- Experience with version control systems like Git for code management and collaboration.

General Skills:

- Problem-solving skills and the ability to think logically.
- Strong attention to detail and ability to write clean, maintainable code.
- Effective communication skills for collaborating with team members and conveying technical concepts to non-technical stakeholders.
- Self-motivated and proactive attitude towards learning new technologies and staying updated with industry trends.

PERSONAL DETAILS

- D.O.B   : 20 January, 2007
- Marital Status   : Single
- Language Known   : Hindi, English
